

TAMBOUR CABINET

Tambour cabinets use retractable doors that hide within the unit. Due to this you have complete access to your securely stored items without taking up any more space when in use.

These lockable cabinets are ideal for workstations, confined spaces, narrow corridors and an array of office environments.

ABOUT APC

At APC, we provide efficient and flexible storage solutions for ever evolving office space designs and commercial applications.

As an Australian owned, designer and manufacturer based in Perth, we have been providing bespoke storage solutions for contemporary interiors since 1972. Catering to commercial, corporate, government, and public sector markets.

Our current storage range consists of high end Aislesavers (mobile shelving systems), Uni-Shelf (open shelving), mobile pedestals, tambour cabinets, mobile caddys, purpose built lockers and bespoke storage units.

Service is what we focus on, however it's the product, the most relevant, best-designed, world-class storage solutions that we provide.

QUALITY & ENVIRONMENTAL CONTROL

APC has developed and implemented an Environmental Management System (EMS) that not only ensures legislative awareness and compliance, but gives us the ability to identify cost savings with greater emphasis on "resource, waste and energy management" minimising our environmental footprint.

Customers can be confident that APC's strong EMS gives us the structured framework to quantify, monitor and control the impact of our operations on the environment, now and in the future.

APC also has a Quality Management System (QMS) focused on maintaining consistently impeccable customer service to our clients, along with the delivery of quality products and services that meet international standards. Our mature QMS provides us with "quality" systems, "quality" staff and the customer with a guaranteed "quality" product.

COLOURS

Our stock colour range is a refined selection that will always have the shortest lead times.

If you are looking for a customised look for your office fit out, then we also have a large range of colour options to suit your needs.

The customisable options do not stop there however. We provide the option to have a two toned cabinet. This is done by making the slats in the door a different colour to the chassis.

For the full range of colours that we can provide, please see an up to date version of the dulux powdercoating range.

Please note: custom colouring is only available for orders over a certain quantity.
